First Steps Update: Version 1.1

Hello Adventurers!

First of all, I would like to apologise for the delay in getting this update out. I am just one person, and I work a full-time job that's been getting more and more busy in terms of workload, leaving me very drained. **These updates are to give you the immediate changes to the game, as a compromise for me being so late in delivering the v1.1 update to the PDF (which is coming soon!)**

That said, it's been a wonderful first few months, and I'm so happy that so many people have responded positively towards this project. It's been truly awesome to see people post about the game, whether that's **excited comments, feedback, suggestions and corrections, and even art of their characters!**

I've also been approached by several individuals to translate the game into different languages. **So, German and Russian fans, keep an eye out for a version of the game in your language in a later update!**

So, with that said, **there's a few errors with the 1.0.** For the sake of transparency, I had done an editorial pass, but some things do slip through. It happens. I've made my peace with the fact that not everybody will get these updates for the game, and pray they fill in the gaps and find the intended meaning. But, for those of you who are keeping up, we've got some changes coming your way.

So, what's in this update, anyways? Mostly, just "bugfixes". **I'd like to give a HUGE shoutout to all the members of the community that provided feedback for the game** – you've really helped this game take shape!

If you find other "bugs" in the game, typos, or things that you feel are unclear, please email me at hello.explorerspmd@gmail.com, or use the "Contact" section of this website.

So, without further ado, let's begin.

Version 1.1 Update Notes:

Website Updates:

- Added the “News & Updates” section.
-

Rules Clarifications

Errata and explanations for certain rules.

“Scores a Critical Hit on a 5-6”:

I previously failed to clarify the correct damage calculation on “Scores a Critical Hit on a 5-6” Moves.

“If you roll a 5 on a damage die when using one of these moves, you add 5 to the damage total, but you still roll the dice again for a Critical Hit.”

Frightened Condition:

The version of this Condition requiring targets to run is an older version of Frightened found in the “Status Conditions” PDF is an older test version. The correct version of the Frightened Condition is found in the PDF. For the avoidance of doubt, here it is:

“A Frightened Pokémon’s Movement is halved when moving towards the Pokémon that Frightened it. It has Disadvantage on Move rolls against the Pokémon that Frightened it. At the start of each subsequent turn, the Pokémon can roll the appropriate Status Resistance Check again to attempt to overcome their fear.”

Inflicting Item Effects:

Item’s that have an effect on other Pokemon did not have a TN set to save against them. This has now been rectified.

“When using an Item (such as a Seed or Orb) that targets foes, make a Traps Check to set the Target Number. The target makes an Endurance Check, and if they fail to meet the Target Number, they suffer the effects of the Item. If this Item is Thrown, remember to make your Traps Check first to determine the distance of the Item being Thrown.”

GM Advice - Item Shops and Purchasing Items:

“Certain Items are inherently very strong, but may also be relatively inexpensive for higher tiers of play (or for those that are able to generate Pokè very fast). It is important for GMs to be cautious about selling these types of Items, especially those that give permanent increases in ability, such as Gummis, Medicines, Battle Items and TMs/HMs.

(Almost) all Items have a cost attached for the purposes of value when bartering, especially if you'd like to sell those Items. Just because there is a cost, does not mean it is sold and readily available. Use your best judgement so as to preserve the balance of the game."

Balance Changes:

Fixes to some existing Moves.

- Roar's targeting should be "Foes in Front".
 - Mirror Move's targeting should be "Foe up to 2 Tiles Away".
 - Pay Day's Move Power should be "2", and its PP should be "10".
 - Grudge's PP should be "5".
 - X-Scissor's Power should be "3".
-

Typo Corrections

Just some typo fixes that slipped through editorial passes.

- Page 1, my surname is spelt incorrectly. The correct spelling is "**Pleasant**". Whoops.
 - On the Cheatsheet, Major Skills are listed as 2d6. **The correct amount of dice for Major Skills is 3d6.**
 - Pages 5 and 73 it says "Adventure and Rescue Team Federation", but on pages 58, 61, and 97 it says "Rescue & Exploration Team Federation". The correct title for this organisation is "**Adventure and Rescue Team Federation**" (Though you can change it to whatever you like, it's your game, after all).
 - Lustrous Globe (page 223): The Lustrous Globe is missing the following text: "**Palkia holding this Item has its Move Power of all Moves increased by 1.**"
 - The Class Overview (page 22) lists the Brawler and Specialist having 25 starting HP and gaining 15 per level, however pages 38 and 41 show these classes as only gaining 10 per level. **The correct amount of HP gained per Level Up for the Brawler and Specialist Classes is 15.**
 - Mega Drain is listed as both a ★★ and ★★★ Move. **Mega Drain is a ★★ Move, and the existing ★★★ entry will be removed.**
-

Missing Content:

This section is for all content that may have been alluded to in the v1.0 document but not mentioned later.

“Free-Form Dungeons” Optional Rule

“With this Optional Rule, you can transform the layout of your Dungeons from a typical labyrinthine Dungeon with rectangular Rooms to a more open space, such as a cave with huge chambers, an open field, a dense forest with glades, or a sea floor (these examples are not exhaustive). You can use typical “D&D-style” battle maps for specific areas teeming with Wild Pokemon, or for the whole thing if you’re so inclined.

Instead of Stairs, you can simply mark out different sections of your Dungeon that can act as “Floors” for the purpose of any mechanics that interact with it, such as restoring Status Conditions or Stat Changes, or the Explorer’s “Pickup” Ability. Additionally, any Moves with a Range of “Room” should be designated to a 10x10 square grid area.

Please note, however, that this Optional Rule is untested, and does somewhat deviate from the “Dungeon-Crawler” design of the game.”

Revive All Orb

As stated in the Silver Rank and the Diamond Rank Rewards, a “Revive-All Orb” is a Reward.

IMAGE	NAME	EFFECT	COST
	Revive-All Orb	When a Team member is KO'd, this Item can be used as a Reaction. For the next 5 Rounds, instead of being KO'd, Team Members are placed into a Downed state. On their next Turn, the Pokemon is then Revived. However, after a Pokemon has been Downed and Revived in this way, they cannot benefit from this Item again for 1 day. After 5 Rounds have been completed, this Item is destroyed. Range: All team members.	3000P

Fairy-Type Gummi

This item was missing from the original list of Gummies.

IMAGE	NAME	EFFECT	COST
	Rose Gummi	Permanently raises IQ of fairy types by 5. Can be used to fill half your belly for today.	250P

Treasure Chests

On page 67, a Locksmith is listed under the “Shops and Services” section, and makes mention of Treasure Chests, which appear nowhere else throughout the document.

IMAGE	NAME	EFFECT	COST
	Treasure Chest	Can be unlocked with a TN30 Traps Check. Can also be unlocked at a Locksmith. They contain a rare item, Poké, or both.	---

New Moves:

These moves have been added to the “Explorers! A PMD RPG: Moves & Rare Qualities” Google Sheet to view.

Present

Present	Normal	Physical	---	15	Roll a d6. On a 1-2, the target is healed 2d6. On a 3-4, Move Power is 2d6. On a 5, Move Power is 3d6. On a 6, Move Power is 4d6.	Foe in front	★★
---------	--------	----------	-----	----	---	--------------	----

A ★★ Physical Normal Move that can heal or harm. Roll a d6. On a 1-2, the target is healed 2d6. On a 3-4, Move Power is 2d6. On a 5, Move Power is 3d6. On a 6, Move Power is 4d6.

Hidden Power

Hidden Power	Normal	Special	3	15	Type changes based on Aura. Fighting = Pearl/Silver, Flying = Olive/Gold, Poison = Blue/Ruby, Ground = Brown/Pink, Rock = Purple/Scarlet, Bug = Lime/Diamond, Ghost = Sapphire, Steel = Orange, Fire = Yellow, Water = Mint, Grass = Platinum, Electric = Red, Psychic = Green, Ice = Emerald, Dragon = Violet/Black, Dark = Turquoise/White, Fairy = Magenta.	Foe in front	★★★
--------------	--------	---------	---	----	--	--------------	-----

A ★★★ Special Move that's Type changes based on Aura. Fighting = Pearl/Silver, Flying = Olive/Gold, Poison = Blue/Ruby, Ground = Brown/Pink, Rock = Purple/Scarlet, Bug = Lime/Diamond, Ghost = Sapphire, Steel = Orange, Fire = Yellow, Water = Mint, Grass = Platinum, Electric = Red, Psychic = Green, Ice = Emerald, Dragon = Violet/Black, Dark = Turquoise/White, Fairy = Magenta.

New Content:

New stuff!

Move Tutoring Level/Price:

Move Tutoring should be priced accordingly. You can also use this Table for bartering for TMs.

★ Moves = 50-100P

★★ Moves = 250-500P

★★★ Moves = 1000-2000P

★★★★ Moves = 5000-10,000P

★★★★★ Moves = 10,000P+

Blank TMs

A convenient new item that can be used to learn new TMs whilst you're out-and-about, or learn a signature move of a Boss!

IMAGE	NAME	EFFECT	COST
	Blank ★ TM	Can be used as a Reaction to seeing a Move being performed, and copies the Move, transforming this Item into a teachable TM for that Move.	100P
	Blank ★★ TM	Can be used as a Reaction to seeing a Move being performed, and copies the Move, transforming this Item into a teachable TM for that Move.	300P
	Blank ★★★ TM	Can be used as a Reaction to seeing a Move being performed, and copies the Move, transforming this Item into a teachable TM for that Move.	1250P
	Blank ★★★★ TM	Can be used as a Reaction to seeing a Move being performed, and copies the Move, transforming this Item into a teachable TM for that Move.	5500P
	Blank ★★★★★ TM	Can be used as a Reaction to seeing a Move being performed, and copies the Move, transforming this Item into a teachable TM for that Move.	10,000P

Optional Rule: Refresh HP/PP before Boss Battle

“With this Optional Rule, you can choose to refresh the Team’s HP/PP fully before a Boss Battle. This Option exists for those that would like an easier difficulty, or perhaps a stronger Boss than is normally intended for that Level.”

Community Spotlight

This section will also come with each update, and spotlight something that I either found or was sent by the community to appear here for everyone’s convenience.

Sangria's Mystery Dungeon GM Screen

<https://docs.google.com/spreadsheets/d/1BbmsdYxP3w0yXEtRyIZ16MJybHmjYoZULsp6UlqCQls/edit?usp=drivesdk>

This fantastic resource was made by Sangria, a player in the community who reached out to me! This is a brilliant Google Sheet that can help you generate encounters with just a deck of cards, includes Loot Tables, Treasure Box Loot Tables, a Battle Grid, easy access to the Cheat Sheets, a section for note-taking, and even includes a PC & NPC Character Sheet that automatically calculates your modifiers from your Stats! Handy, huh?

NOTE: The Loot Tables and Encounter Generator have been untested by me. This is technically Homebrew content and should be treated as such.

PDF Changes (Coming Soon)

All of the above content will be added. In addition:

- Typos will be fixed.
- Hyperlinks within the main Rules PDF will be fixed.
- Character Sheets will be given a small overhaul. There has also been some feedback regarding inability to place an image in the character sheet, so this will also be fixed.
- A “how-to” guide on making a character will be made.
- Appendix C layout will be optimised to reduce pagecount.

Coming Soon...?

So, what's next, Explorers? First of all, **version 1.1 will be properly formatted into a new document** that you will all get to experience. **However, this takes time** to make sure nothing breaks – so please bear with me whilst I get this done.

Next, **version 1.2 and onwards will be “themed” updates** to the game, coming in new PDFs that will provide new content for the game! **These will include new Classes, new game features, and more Quality of Life improvements, as well as any future balancing updates for the game.**

That's all for now, folks. I'll be working hard on the v1.1 document in the meantime. I hope you enjoy the changes!

Harper Alistair Pleasant
